

SQL Practice:

insert into users

(userId,firstname ,lastname, username, password, DOB, userTypeId, userStatusId)
values ('5410','Travis', 'Johnson', 'Spankiticus', '1234', ' ', 1, 1);

describe orderItem;

insert into orders

(userId,orderDate,shippingDate)
values('5410',2013-01-01,2013-02-01);

insert into orders

(userId,orderDate,shippingDate)
values('5410',2013-02-01,2013-03-01);

select orderId from orders where userId='5410';

insert into orderItem(orderId,itemId,quantity)
values(21276,21,1);

insert into orderItem(orderId,itemId,quantity)
values(21277,22,1);

insert into userDVD(userId,dvdId)
values('5410',223);

insert into userDVD(userId,dvdId)
values('5410',556);
describe userVehicle;

insert into userVehicle(userId,VehicleId)
values('5410',308);

insert into userVehicle(userId,VehicleId)
values('5410',3006);

Select * from users

join orders
on users.userId =orders.userId

limit 200;
